On page 5 of this paper we reproduce pages 1 and 16 of July FARMING. It contains the opening announcement of the former Commissioner of Agriculture, Hon. Fred W. Davis, for United States Senator. Read it, analyze it, see how fundamentally sound his position is, and vote for him. The editor of this paper was closely associated with Mr. Davis for all of the six years that he was employed in the State Department of Agriculture, and endorses him without reservation.

Mr. Mabry who is helping move the big Standard rig of the Lampassas-Bischoff Oil Co., to its location happened to an accident that cost him the last joint of the third finger of his right hand. Thursday he was engaged in handling heavy pipe and got the member so badly mashed that amputation was necessary. Surgical attention was immediately summoned and his injury received prompt attention. Just recently he was involved in a dynamite explosion near Pearsall in which one man lost his life, and he himself badly injured. Everyone trusts that his injuries will incapacitate him for a brief time only and hope that he will soon be back on the job.

Charles Krenmuller was up from Biri Tuesday and paid this office a pleasant call. Mr. Krenmuller informed the Anvil Herald that a 16-piece band has recently been organized at Biri. Mr. Krenmuller is the Director of the band, Rudolph Posch, President; Aaron Bilhartz, Vice-President; Henry Mussmann, Treasurer. The band is practicing and hopes soon to be ready to give band concerts.

Mr. and Mrs. J. W. Ridenow and family, from Ingram, were visiting Mr. and Mrs. Geo. Leinweber for a few days last week. It has been some eight years since Mrs. Ridenow saw her parents last. They are all well and enjoying prosperity. Mr. and Mrs. J. Sublett came along, visiting relatives and friends, returning Sunday.

The local lodge of Odd Fellows will install officers for the semi-annual term tonight. A visit from the District Deputy Grand Master is expected, and all who possibly can should attend this meeting.

Commissioner Henry F. Buss announces this week for re-election to the office of Commissioner of Precinct No. 1, at the November election. You will find his announcement in the proper column.

Judge W. C. Baker, candidate for District Attorney, was in town yesterday and spoke at the courthouse

last night in the interest of his candidacy. We go to press too early to give a report of the meeting.

Fritz Stiegler and son, Clifford, of New Fountain paid the Anvil Herald a pleasant call Thursday. Mr. Stiegler reports that he and family just returned from a trip to Kendall and Mason Counties. He asserts that Medina county is much better off than those countries in regard to crops.

The Aztecs, Hondo's crack Mexican baseball team, has disbanded for the season, as a number of the players have gone to the cotton fields in Nueces county. The Aztecs made a remarkable record during the season, playing twenty-five games, winning seventeen, tied one and lost seven.

JUDGE KONE FOR DAVIS.

Austin, Texas, 7/7/1924
TO MY FRIENDS IN TEXAS:

At the request of the Farm Labor Political Conference, Fred W. Davis, of Austin, Texas, former Commissioner of Agriculture of the state, is making the race for United States Senator, subject to the action of the July primary.

I have known Fred W. Davis long,

and intimately. Am glad that he is making this race and sincerely hope that he may be elected, for the good of Texas, as well as the nation.

He is a manly man, without ostentation, a true friend, intelligent, honest, sincere, and a splendid thinker, and entirely capable. He perhaps knows the needs of Texas as well, if not better, than any other man in the state.

If there ever was a time when it behooves the people of Texas to send

a real man to Congress, a man who thinks on principle, and not isms, one who has conviction, and the nerve of them, it is now. Davis is that man.

The average Congressman of the day thinks principally of appropriations, evidently not realizing the fact that appropriations by Congress, except for necessary expenses to run the government, is a system of graft, that is sapping the life blood of the tax-payers of the nation.

My countrymen, did you ever stop to think that every dollar that Texas receives from the Federal Government, it costs twenty dollars to get it, and that Texas pays the entire bill, and then plus?

It means the creation of more places for pets, to strut around in Federal garb, and live on the fat of the land, while you bend your backs to the heat of the sun, or in sweatshops to pay the bills.

The 50-50 proposition of the Federal Government, from every viewpoint, is a crime against the people, and every one of them unconstitutional and undemocratic except perhaps the one on public roads—and yet, our legislators and executives grab everyone of them like a hungry trout, notwithstanding they must know that Texas pays all the bills plus.

Oh, for a Jim Hogg in the executive chair! Wouldn't he sit down on them with a thud that would reverberate around the world?

We have too many opportunists in public life. I mean people who seize every political opportunity today without regard to the consequences of tomorrow.

Mr. Davis deliberates carefully upon what effect the acts of today will have upon the government tomorrow, and this, my friends, is an attribute of statescraft. He has written many able documents concerning the inevitable effects of opportunism upon the world in the years to come.

Let's get behind Fred W. Davis, and put him across and my word for it, we will hear something more than isms and appropriations from him.

He will make a manly, able fight for the principles of right and justice, and do his best to have this government administered in the interest of all people, on a safe, sane and economical basis.

Signed, ED. R. KONE.

On the 103rd ballot the Democratic National Convention nominated Prof. West Virginia for the Presidency. Davis is said to be a very able and clean man personally. But he has been Wilson's Ambassador to England, he is tainted with Anglo Mania; and being the attorney of the Standard Oil Trust, he is under sinister financial influences. Either of these might be serious matters to reckon with, there a semblance of possibility in his defeating Coolidge. Being the 103rd choice of the convention, opine that he will not come closer to being the choice of the people. Governor Charles Bryan of Nebraska, a brother of the immortal W. J., was selected as the candidate for Vice-President, and poor old Bryan didn't even get a pleasant reception for her man Owsley.

OUR CHOICE FOR UNITED STATES SENATOR.

(Continued from first page.)

nations to make arrangements to pay what they owe the American people. For the government to agree to the cancellation of these debts would be worse than mere embezzlement because much of this money was furnished at a great sacrifice.

Federal Reserve Act.

I favor amending the Federal Reserve Act, so that its Board of Directors will be fairly representative of the nation's industries.

Would deny the Board the power or privilege of brow-beating local banks or to bring on business panics at will. A deliberate depression of business, such as was openly forced upon producers in 1920, by the Federal Reserve Board and the Secretary of the Treasury, should be made a criminal offense.

Organized Labor.

I favor the organization of industrial laborers, the right to bargain collectively and the right to strike for better wages or better working conditions. In case of strikes, I do not believe organized workers have a right to forcibly prevent others working, or to destroy property. They do have a right to use argument or other persuasive means to keep others from taking their places. When the government assumes to participate in industrial controversies, it should consider the whole question, such as sound management, sound capitalization and cost of management, and not alone the labor cost.

We should never consent that the government has a right to compel one set of men to work for another where private profit is the result. I believe when organized laborers get more nearly equal in power to organized capital, serious disturbances will be few.

I favor the purposes of the Railway Labor Act now pending in Congress, which would abolish the present Labor Board and provide a new machinery for the settlement of disputes. In my opinion, the costs of administration as provided for in this bill can be materially reduced and provisions for more definite settlements can be made. All industrial legislation should be equally fair to employer, employee and the public. Right is the only basis upon which settlements can be made permanent. If human rights and property rights unavoidably conflict, property rights must yield, for property belongs to man and not man to property.

Pork Barrel.

Purchasing political patronage with the people's money by securing special appropriations, creating new jobs, the distribution of garden seeds, etc., while the people are staggering under the burdens of taxation, is a national scandal. The crying need for a reduction of governmental expenses cannot be heeded if Congress continues to create new jobs and keep one another's political fences builded up by appropriations for every conceivable project.

Agriculture.

Agriculture is the nation's greatest asset. It is fundamental to both national progress and human existence.

Yet, judging by the effort put forth, it is the least understood of any business of sufficient importance to command national attention. For example: Millions are sent and thousands employed by the government supplemented by Chambers of Commerce and business institutions in an effort to secure abundant crops. Then, when good crops are secured and producers ask for a chance to convert their successful productions into assets, they are met with the statement that producers should not expect special privileges. That supply and demand determine the price of their produce.

After teaching that the law of supply and demand governs prices the Federal Reserve Board and the Secretary of the Treasury forced producers to sell their products in 1920 for less than 1-2 the cost of production, with practically the whole world naked and hungry. Then after this disaster had greatly decreased the farmers' ability to buy farm implements, (creating a weak demand), the price of farm implements were advanced the next year about thirty per cent. In both cases, what had become of the law of supply and demand and what had become of the decree of the Federal Reserve Board and the Secretary of the Treasury, "That prices MUST come down?" President Wilson spoke a great truth when he said, "The law of supply and demand has been displaced by unrestrained selfishness."

If the government and financers understood the ailment of the producers and really desired to assist them they would finance non-perishable farm products when properly protected and insured, so the supply be regulated to meet the demand and prices stabilized upon a cost basis. This would convert good crops into assets instead of liabilities. If this were done the consuming public would have no fear about food and clothing for a long time to come. Farmers need less encouragement to borrow money for production purposes and more help for marketing purposes. It is safer to loan money upon protected articles than upon the chance of producing them.

To give producers a chance to price their products according to investments, would not be special privilege but long delayed simple justice and in harmony with a universal principle of business.

Opposed to Fictitious Speculation.

Let the government decree that so called buying and selling, when no products are delivered or received, where nothing is involved except chance, is not speculation, but gambling, and must be abated. Then the producers will arise and walk in a newness of life.

Every farmer knows he does not succeed simply because he is not permitted to price the fruits of his toil and investments. This is why he is so indifferent to proffered help during the growing season.

No man should be considered an economist or a statesman who cannot comprehend this simple business problem. No business can succeed that must sell its goods irrespective of costs.

If elected, I am going to see to it that ignorance as to what the producer need and are entitled to, shall no longer exist at Washington. The trimming of the producers both ways, viz: getting them to produce to the extent of their strength in order that necessities may be abundant, then forcing them to sell at whatever price others may choose to pay, while in turn they must buy their needs at whatever price others may choose to ask, is going to be shown up so clearly that he who runs may read. The trouble IS NOT one of production, but one of prices.

International Policy.
The United States should not attempt to shirk her duty as a powerful nation in the world affairs. But this government should be the judge as to the character and extent of her duties. We should not try to hedge ourselves about, yet we should remain politically independent as a nation. This government can exert a greater influence on International questions sitting as an independent nation than she can by becoming a component part of a super-government.

Injunctions.
I believe in enforcing the Constitutional Prohibition Amendment the same as all other Constitutional provisions. Would like to see the National Capital the driest place in America, and the city of Washington the driest city in the United States. Congress should set the example for law observance.

Suffrage Prohibition.
Our courts should be sustained as the instrumentalities for administering justice, but some means must be found to prevent the obstructions of justice by means of unwarranted

Our Choice for United States Senator

**HON. FRED W. DAVIS
ANNOUNCES**

assume all the responsibilities. Am opposed to all other encroachments upon the functions of the state governments by means of subsidies or otherwise. Such work is not cooperative either in spirit or in law, but Federal domination, purely. Would confine all agricultural work, where the government is a party, to experiments, demonstrations and research.

During the war when our railways were under government control, our state commissions, of course, ceased to function. But after the war, Congress passed the Esch-Cummins bill which ran true to form in ignoring the rights of the states. I am opposed to the Interstate Commerce Commission exercising authority wholly within the states. I favor a return to the state railroad commission authority over all intra-state rates. I am opposed to the business advantages which the Interstate Commerce Commission under this law has given to the railroads over the producers. And if elected to the Senate, I will seek a serious modification or its outright repeal.

Opposed to War.
I favor an International agreement to stop the manufacture of implements of war, and to hold a declaration of war in abeyance until the people who must do the fighting can have a chance to pass upon the question by a referendum vote, with the understanding that all who vote to fight will constitute the first army. In case of war, would favor removing all profits from the things furnished for war purposes. War should be a period of universal sacrifice, not one of unusual profits to a favored few. I would draft wealth before drafting men. Would make it a felony to undermine the nation's credit by depressing the value of its bonds during war and for a period of two years afterwards.

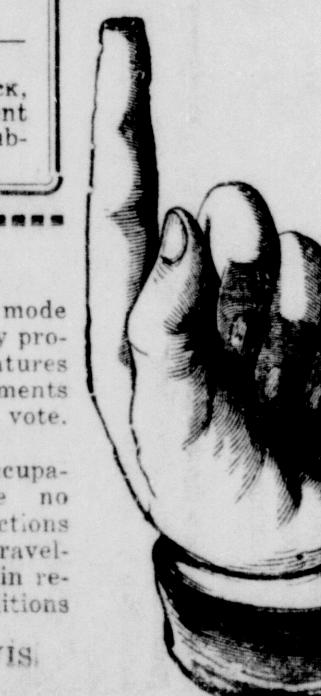

In case of armed invasion or insurrection, certainly the government should act according to its present authority.

War is not only mass murder and wanton destruction of property, but it is contrary to the laws of all civilized nations, in governing the conduct of their citizens and contrary to the laws of God, and should be ceased forever.

Foreign Debts.
I favor calling upon our debtor (Continued on last page.)

HON. FRED W. DAVIS

Congress has indulged in the assumption of power until the principles bought with the blood of patriots is considered out of date.

The people are lead to believe that progressive government means a departure from the principles upon which our government was founded.

The principles of freedom are not comparative, but absolute. Progress in government means the application of immutable and fundamental principles to the ever arising new problems, by means of making new in-

"POLITICAL ADVERTISING"

Elsewhere will be found a political advertisement of Judge Felix Robertson, one of the nine candidates for governor. This is a paid advertisement, sold as we would sell advertising space to any other legitimate buyer. As most of our readers know, although Judge Robertson's "friends", in keeping with their accustomed "secrecy" and "masked activities," do not take the public into their confidence to the extent of telling them so in the advertisement, Judge Robertson is the candidate of the Ku Klux for governor. If there was any need for it this statement from US should be good to secure for him the vote of every klansman who reads this paper.

While a backhanded way of doing it, that should help him some, and doubtless that is what his "friends" want. Judge Robertson is not on the editor's personal slate—and Judge Robertson's friends read that to learn who not to vote for. Hurrah for Miriam, the madam who carries on. P. S. This is not the "paid" part of the advertisement.

NOTICE TO STOCKMEN.

If you expect prompt service when shipping cattle to Native Yards or otherwise, or trucking and driving out of this County, please notify me two or three days ahead, as all local inspectors are very busy now and I am called away a great deal of my time.

ANOTHER HONDO CASE!

Time-tested by a Hondo Resident

Just another report of sickness and suffering relieved by Doan's Pills. Another Hondo case that tells of lasting benefit. What can be more convincing? Thousands recommend Doan's for backache, rheumatic pains, headaches, dizziness and distressing urinary disorders. Doan's are a stimulant diuretic to the kidneys. They have helped thousands and should help you. A Hondo case:

Mrs. X. Wantz, says: "My kidneys were disordered. A dull, bearing-down pain in my back greatly increased until I had to give up. I couldn't stoop or straighten without severe pain. Doan's did me good and I gladly recommend them to others."

FOUR YEARS LATER, Mrs. Wantz said: "I think as much of Doan's today as when I gave my former statement. The cure has been permanent."

CALOMEL GOOD BUT TREACHEROUS.

Next Dose may Salivate, Shock Liver or Attack Your Bones.

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your soluble like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headache, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take Calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone strengthens you up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

FARM LOANS.

The Hondo National Farm Loan Association, H. E. Haass, Secretary-Treasurer, Hondo, Texas, representing 176 borrowers, with \$688,480 borrowed, is prepared to make farm loans anywhere in Medina County under the Federal Farm Loan Act at 5 1/2 per cent interest and 1 per cent 33 year amortization repayment plan. Thirty-three thousand Texas farmers have taken advantage of this system of borrowing over ninety million dollars. Why not you? You may borrow for any purpose provided for in the Act, as a farmer only.

Fish are biting. We have everything you want in the way of fishing tackle. C. R. Gaines. 40-tf.

Mr. and Mrs. Edgar Balzen and son, Earl, visited Emil Kauffman and family at Red Wing Sunday.

Miss Freda Balzen of Hondo visited relatives here Sunday.
